

Timing is everything.

With a QMotion® Timer Remote, shades have never been so simple, or so smart. Thanks to easy programming, just enter your zip code to automatically load sunrise and sunset times. Or if you have specific needs, you can choose a more detailed schedule to perfectly match your lifestyle. After all, the single-channel, five button QMotion® Timer Remote offers something for everyone:

- Six event settings so your shades can be where you want them anytime, any day.
- Energy efficiency by making the shades lower when the sun is at its strongest.
- Added security by making your home or office appear occupied to outsiders.
- Automatic sunrise and sunset programs for even more convenience.
- The environment you desire by controlling one shade or a group of shades.
- Use of shades as an alarm clock or any other time-based need.

QMotion® is simple to program with any Windows PC, and for even more ease, it automatically reprograms for daylight savings time. So take control of time with the remote that helps you take control of your shades, QMotion® Timer Remote.

Simple user interface only takes minutes to program.
